FALCON

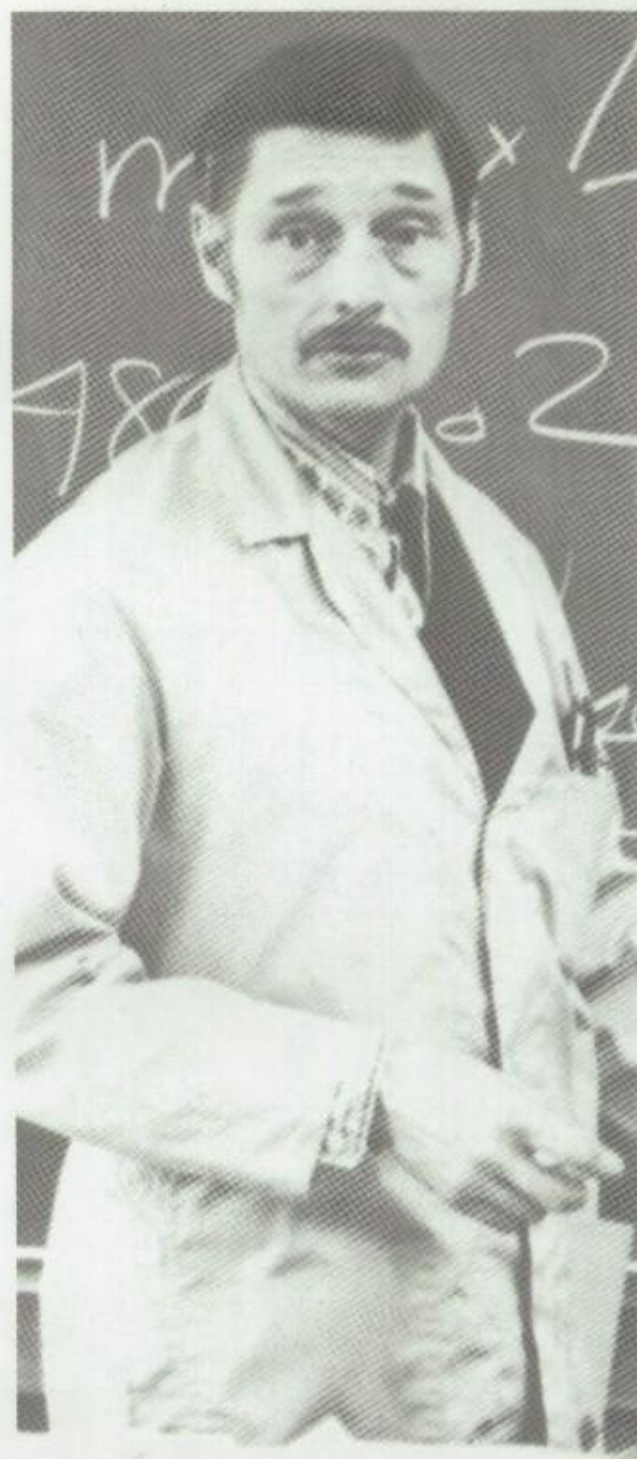

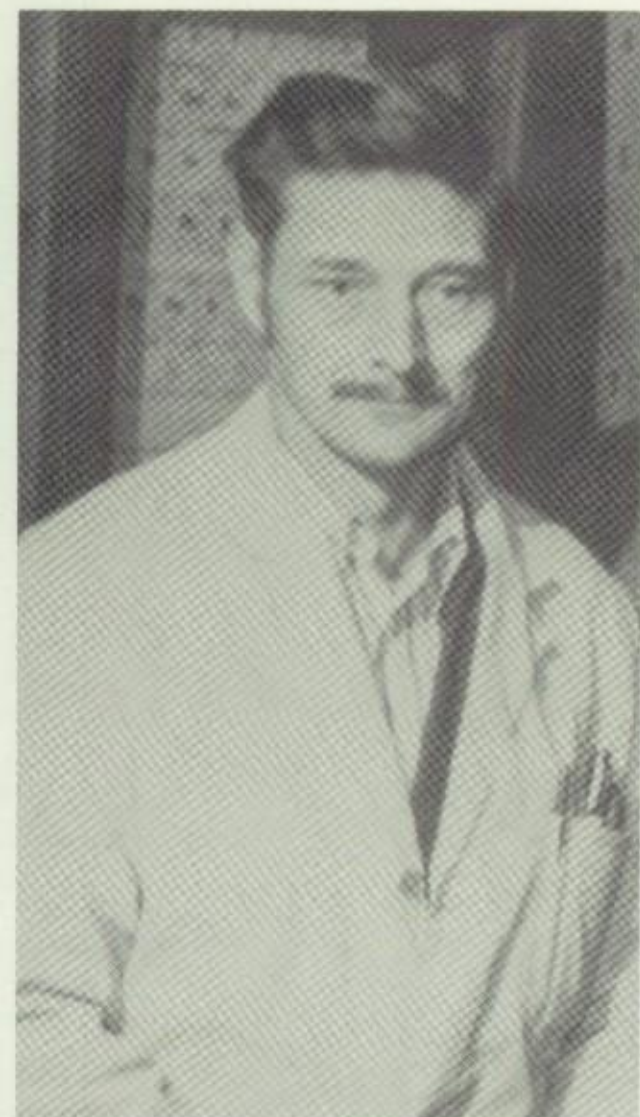

Let us be what
We are and Speak
What we think and
In all things keep
Ourselves loyal to
Truth and the sacred
Profession of
Friendship

-Longfellow

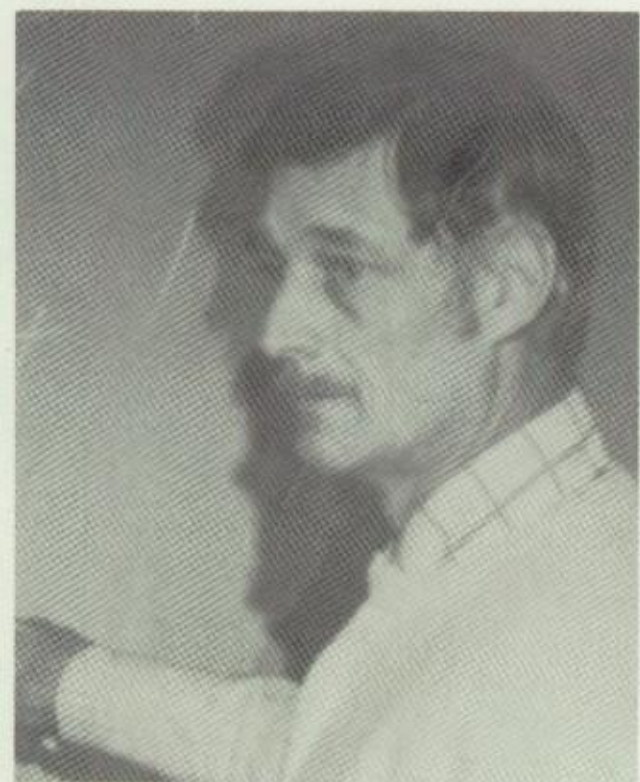

DEDICATION

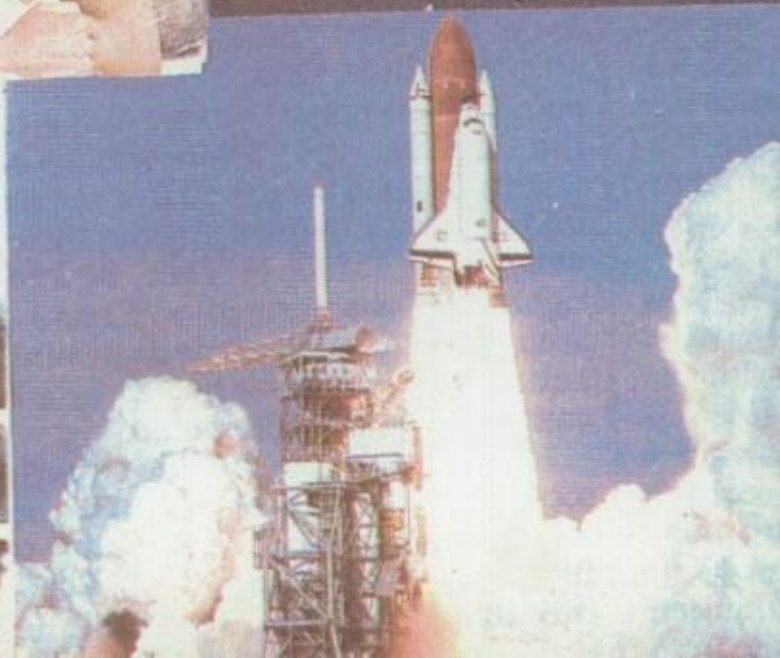

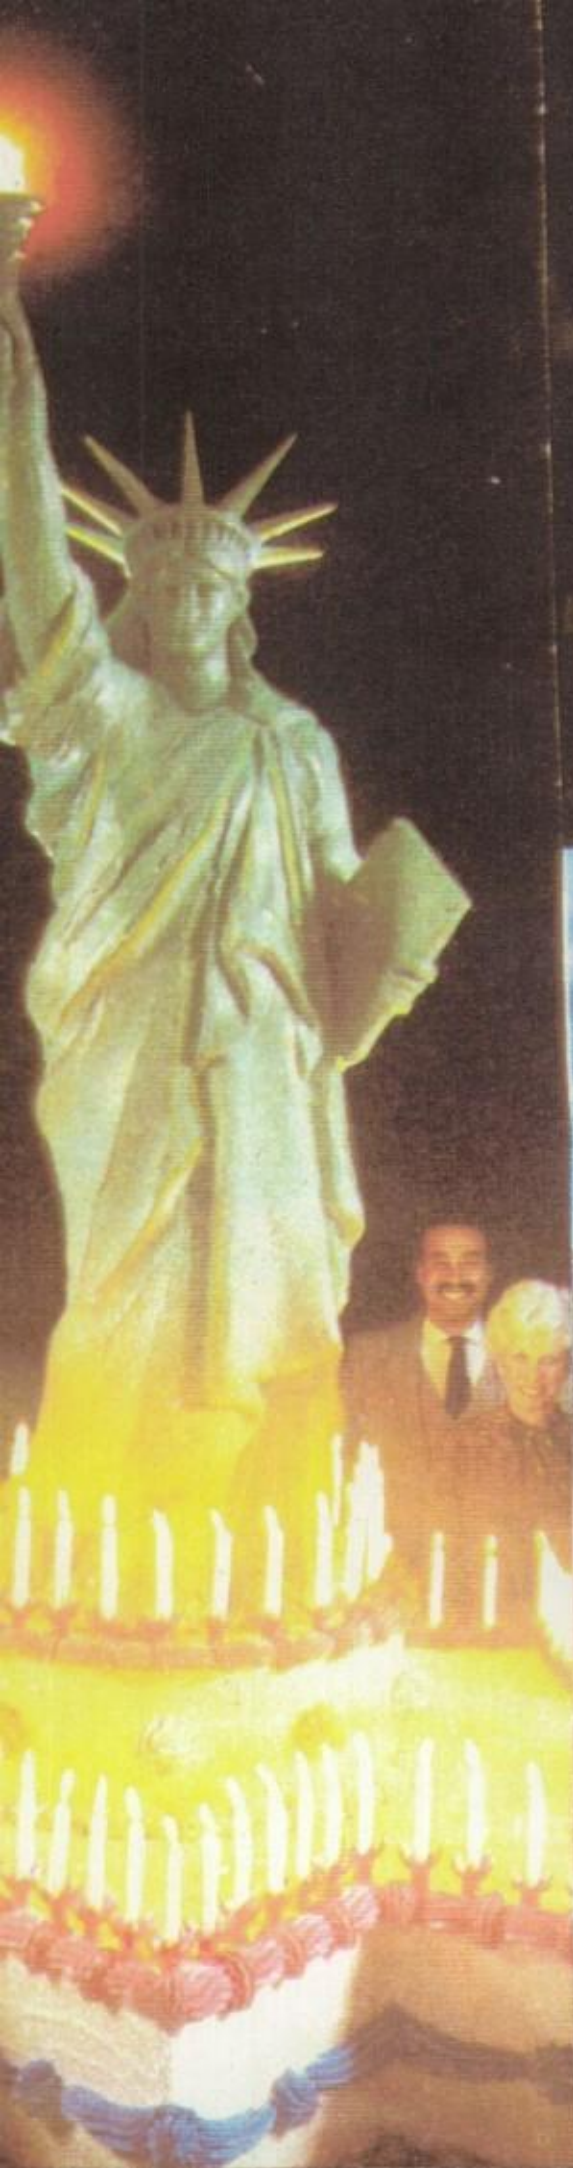

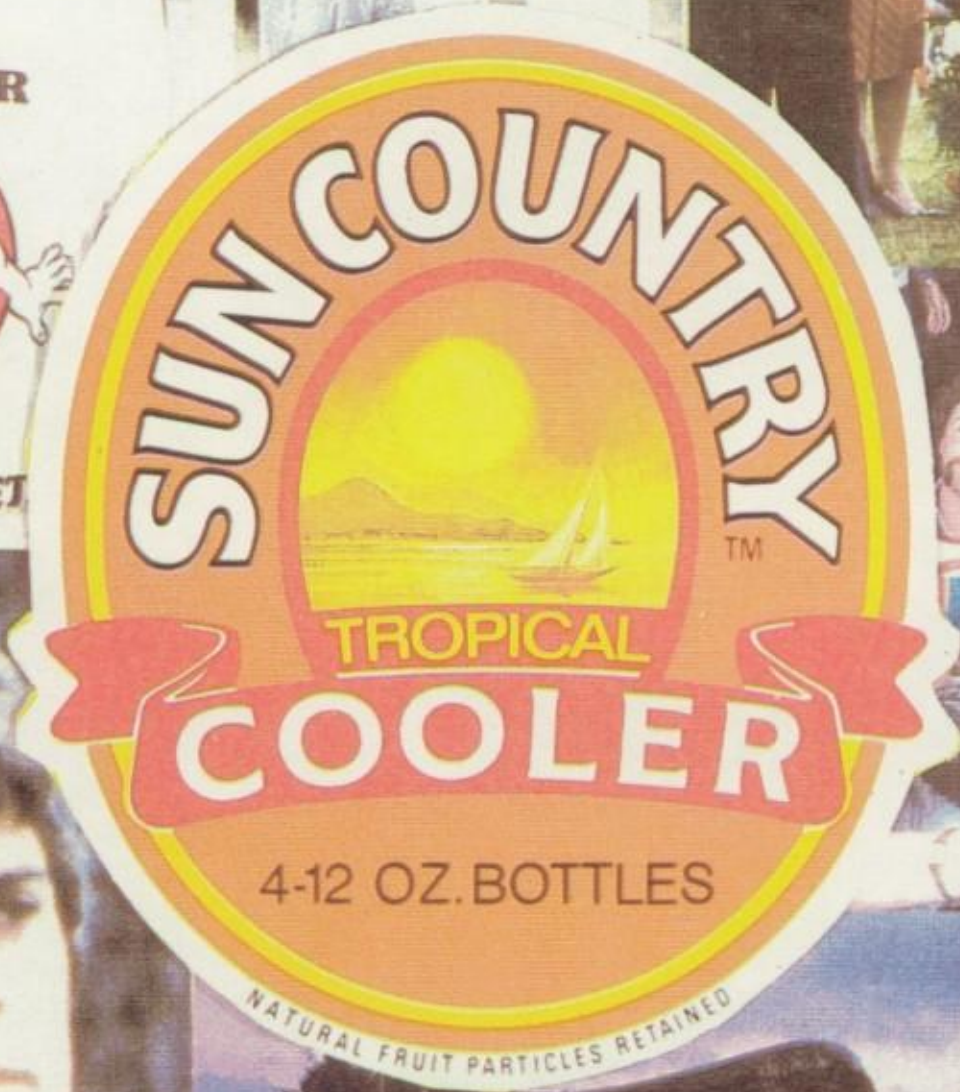

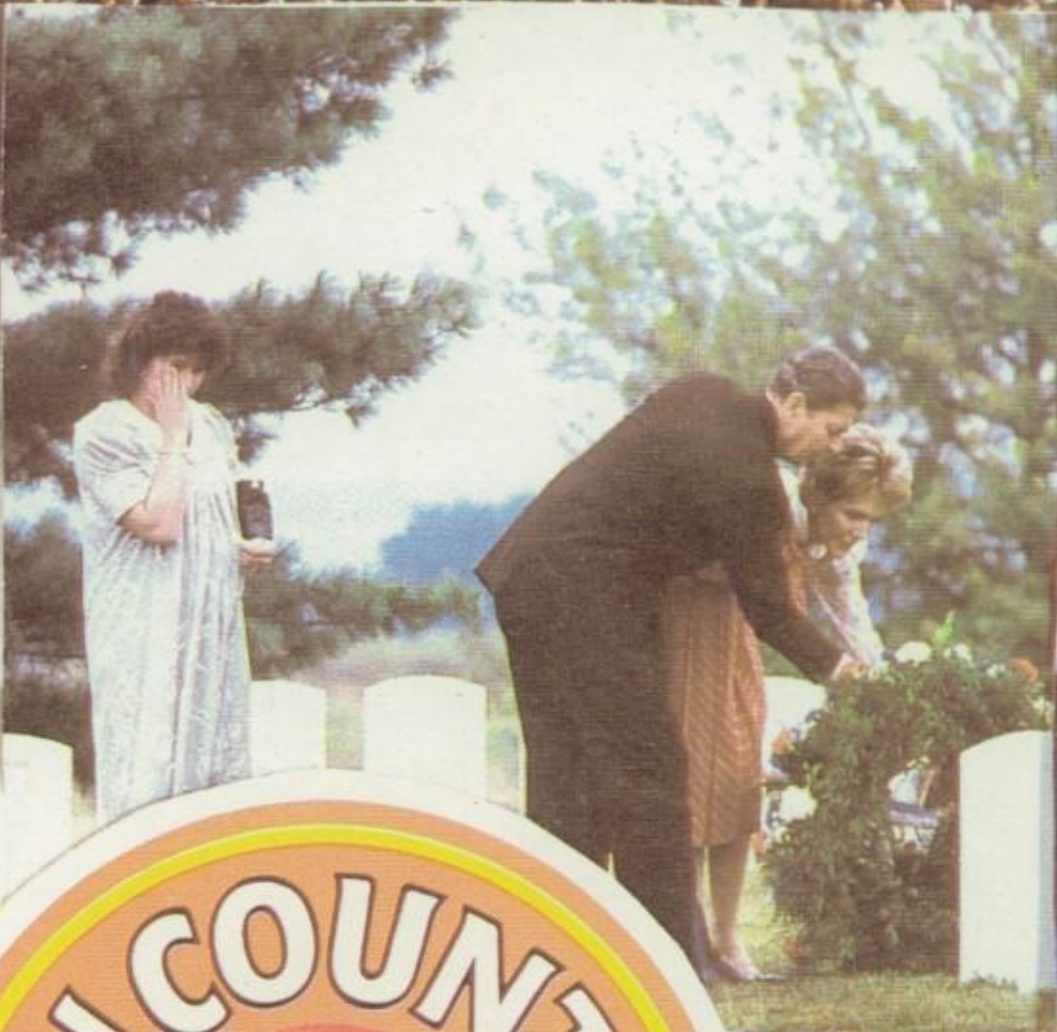

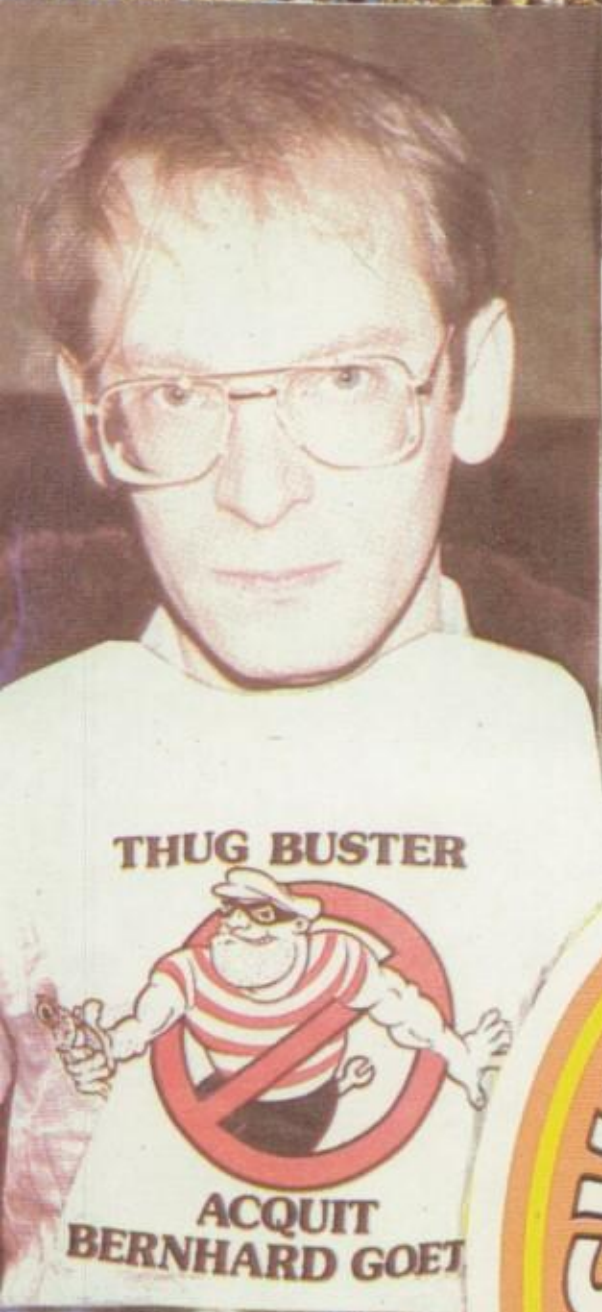

This year's dedication goes to a man who was born in Peekskill, New York, on April 20, 1928, of Danish immigrant parents. He grew up, and attended schools on Long Island. He studied engineering at Pratt Institute of Technology in Brooklyn. At the age of 17, he joined the U.S. Army and spent 3 years with the occupation forces in Italy, working as a topographical draftsman. This man received his BA degree in philosophy from St. Olaf College in Northfield, Minnesota. He worked for a time in Minneapolis as an engineer and designer of industrial machinery. Feeling that engineering was not a rewarding life in terms of service to people, he decided to become a teacher. He returned to school and received an MS degree from Union College in Schenectady, NY. Other graduate work was completed at Hofstra University, Alfred University, Cornell University, Hobart & William Smith College, the University of Detroit, and SUNY at Genesee. He has taught at Addison and Clarence Center High Schools, but the greater part of his teaching career has been at South Seneca.

The 1986 Falcon Yearbook is dedicated to Mr. Paul Larsen.

DUST IN THE WIND

I close my eyes, only for a moment and the moment's gone.
All my dreams, pass before my eyes a curiosity.
Dust in the wind, all they are is dust in the wind.
Same old song, just a drop of water in an endless sea.
All we do, crumbles to the ground though we refuse to see.
Dust in the wind, all we are is dust in the wind.
Don't hang on, nothing lasts forever but the earth and sky.
It slips away, all your money won't another minute buy.
Dust in the wind, all we are is dust in the wind.
